

Self Introduction

Thank you for allowing me to introduce myself.

My name is Raj Kumar Sony, I am from Aurangabad, Bihar. I am pursuing a 3rd year MCA from CMR IT, Bangalore with an overall 8.4 CGPA.

Along with my degree, I have done Java and Adv. java as a certification course from Durga software solution Hyderabad. And also several more certifications from online platforms.

My technical skills are java, python, Servlet, PHP, and C/C++ with data structure. With the help of these skills, I developed several mini-projects that all are mentioned in my resume.

I am also familiar with some latest technologies like Javafx, git cli, heroku, mongodb, and also with some google services like google Auth. and SMTP services.

Now coming to my extra-curricular activities, like, I am a coordinator of technical events in my college. And also worked as a class representative as well as a campus ambassador.

As per my experience, I would like to add, as I can work as a dynamic person in a team.

That's all about me thank you.

Greatest Weakness

As a listener, I spend more time analyzing things during the process whenever any seminar or event is happening and I mostly waste time in doing that. I think this is my weakness.

Greatest Strength

I am a good problem solver as well as I can work as a dynamic team member. Because during my semester's projects, I didn't have much idea about the procedure of doing projects.

But I did many projects in several programming languages. For which I took help from the internet, friends or my seniors. That's why I would like to say I have a good ability to research, read and explore.

Salary Expectation

I am a fresher. My first priority is to enhance my skills and gain knowledge, So, I believe that you will offer me the salary as per company norms.

Why should we hire you?

I have done research on your company, is looking for technical skills such as Design and development application, work on bug fixing and improving the performance.

I believe that my experience with technology in design and development and solving bugs. That's why, I feel, I am a good candidate for this job.

I will try my best to be a good key player of your company, I assure you; you will never regret for the decision to hire me.

Greatest Achievement

When I joined MCA, after a few weeks I participated in an Inter Colleges technical event named "The Code In Dark" and I secured 1st place. Which

is held as a part of Inspiron 19.0 by University Visvesvaraya College of Engineering. This is my greatest achievement.

Greatest Failure

When I participated in the Hackathon, Due to lack of skills and knowledge, I unbled to secure a good place. That was my greatest failure.

After that I started to do several mini projects using different technologies to explore my skills as much as possible.

Why do you want this job?

Sir, As far as I heard about it, the work environment is really amazing, and the People are feeling proud and enjoying their life to work with this company.

I am a fresher. So, I am looking for a good platform to explore my skills and Knowledge. I think my research will be suited for this company.

About Yourself in One Word

I am a self Motivator, because I am from a middle class family. Due to this, I am facing so many problems in life. That's why I always give value to the time and money, and also I am trying to be a responsible person.

How do you handle Stress and Pressure

When I feel stressed, I like to listen to romantic songs in repeated mode to overcome my Stress.

Sometimes, we need to work under pressure as well. So, that's not a problem for me. I like to divide my work as per their priority to manage my timing in a smooth manner.
